

# COLLANEX™

## Collagen Particles

**STRATUS**  
PHARMACEUTICALS INC

Collanex™ is 100% non-hydrolyzed type 1 bovine native collagen. It protects and retains significantly more native triple helical protein structure, thus allowing superior stability of the molecule and scaffolding through all four phases of wound healing.

### Available Size

Five Vials  
of 1 gram each

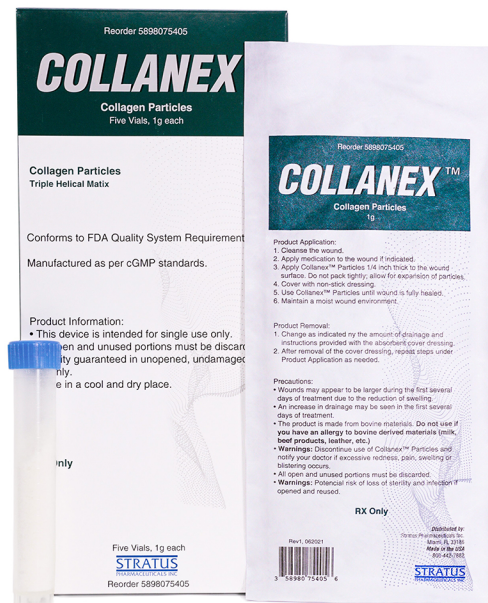

### HCPCS\* Code

A6010

### Reorder Number

5898075405

\*Products are reimbursable under Medicare in the USA.

### INDICATIONS

Collanex™ Collagen Particles is indicated for use and management of burns, scrapes, sores, ulcers, acute and chronic wounds, superficial, partial and full thickness wounds, infected and non-infected wounds, and minimal exudating wounds. Collanex™ is easy to apply and is compatible with other topical agents as well as a variety of secondary dressings.

### APPLICATION

Cleanse the wound per physician order. Apply Collanex™ Collagen Particles ¼ inch to the entire wound bed surface, including any undermining and or tunneling. Cover the wound with a secondary absorbent dressing to promote thermoregulation and maintain an optimal moist wound healing environment. Frequency of dressing change is based on exudate amount, clinical findings, and per physician recommendations.

### CONTRAINDICATIONS

- Known bovine sensitivities.
- Third-degree burns.

### APPLICATION

- Single-patient use.
- Sterile until opened.
- Store at room temperature.
- Do not use if package is damaged.
